BOERS INVADE NATAL

The War Between Great Britain and Transvaal Is On.

MANY WILD RUMORS

No Active Hostilities Are Reported, but Clashes Looked for Every Moment.

All News Tends to Show Active Preparations.

London, Oct. 12.—Official confirmation of the announcement that the Orange Free State burghers have entered Natal by way of Vaalwater is at hand. It leaves no further room for doubt that acts of war have already been committed and the campaign begun.

News of the invasion on the northern border is also generally accepted as reliable.

It seems improbable therefore, that a clash between the forces of the British and Boer cannot long be delayed, if indeed it has not occurred already.

Dispatches furnish ample details of the situation on the frontier and enable a clearer exposition of the military status. It now seems the Boers intend to act in two columns with those from the Transvaal, working from the north, and those from the Orange Free State, working from the west, with the object of keeping the British forces at Ladysmith and Dundee occupied while parties of Boers slip past to destroy the bridges along the railway, forming the line communication between the British at Bourbon, Natal, and the advanced base at Rietmartsburg and front.

It is regarded as possible for the Boers to occupy Estcourt, where there are only 100 naval brigade, and the news that the Boers are raiding Zulu-land in the neighborhood of Eshowe is taken as confirmation of this possibility.

A dispatch from Mafeking says Col. Baden-Powell has sent a strong British force from Mafeking toward the border with field guns and ambulances, with a view of occupying an advantageous defense on high ground.

Dispatches from Durban, Natal, confirm the report that the Orange Free State authorities have seized a Natal train that left Ladysmith for Harri-smith. They also stopped a train leaving Harri-smith. All rolling stock has been ordered down the country out of reach of seizure.

It is understood that telegraphic communication with the Transvaal ceased at 5 o'clock Wednesday afternoon. (Transvaal time.)

Free State burghers, according to a private message received here, have crossed the Orange river into Cape Colony and have occupied Philipstown. Their object, it is supposed, is to cut railway communication at Deaar Junction, which is considered an important strategic point.

The imperial reserves of Natal have been called out. Everybody left Charleston on the last train bringing away the railway staff to New Castle, while the exodus from New Castle also continues.

The Fifth dragoons have arrived from India and at once proceeded to the front. Information has reached here that the Boers have mined three piers of the bridge at Komati Poort on the Komati river.

The latest information regarding the number of burghers assembled along the Kimberly border is that they do not exceed 8500. The Boers only have four field guns. A successful attack upon Kimberly is therefore considered impossible.

The authorities of Mafeking are hourly expecting an attack in which event the wires between Mafeking and Kimberly will be cut and information entirely shut off.

According to a dispatch from Cape Town it is asserted that the Boers have arranged with Chief Linch-We, a prominent chief on the northwestern border, to take up arms against Great Britain.

Half of the battery of artillery from Kimberly has arrived at Mafeking. The police of outlying stations have been ordered to concentrate within the town limits. No one is allowed to leave by either road or train without a special permission, which is not granted to any able-bodied men. Nearly all of the women and children have left. Confidence in their ability to repulse the Boers is increasing among the British.

Appeal to Preserve Peace.

Cape Town, Oct. 12.—In the Cape house of assembly Premier Schreiner made an impassioned appeal to the country and the press to preserve peace. It is asserted that Schreiner refused to sign the proclamation of the governor of Cape Colony.

Sir Alfred Milner declares all persons abetting the enemy in the state of war against Great Britain to be guilty of high treason.

It is understood the military authorities will immediately establish a censorship over all telegrams to and from

Cape Colony as has already been done at Natal.

Boers Pouring Into Natal.

London, Sept. 12.—A special from Ladysmith says the Boers occupied Laings Nek the moment the ultimatum expired. They are now pouring into Natal and Ingomg Heights has been occupied.

All Kinds of Rumors.

London, Oct. 12.—All kinds of rumors are telegraphed from South Africa, regarding the Boer movements. Apart from the advance of the Volksraad and Van Reenan commands, and the concentration of the Urecht and Vriheid commands toward the drifts along Buffalo river, east of Dundee, nothing definitely is known.

One special correspondent at Ladysmith expressed the opinion that the Boer command of some 200 men, which visited New Castle on Tuesday and made purchases and then withdrew, may have given rise to the reports regarding the occupation of Laings Nek.

Pleased With American Protection.

London, Oct. 12.—Afternoon newspapers express great satisfaction that the American government has undertaken to protect British interests in the Transvaal. They say the Americans are certain to show the same tact and devotion in discharging the responsibility, which aroused the enthusiasm of "our kin beyond the sea," when the British undertook a similar task in their behalf.

Greene Reported Killed.

London, Oct. 12.—It is rumored that Conyngham Greene, the British diplomatic agent at Pretoria, has been assassinated there. The report, however, is unconfirmed and is discredited at the colonial office.

White Leaves London.

London, Oct. 12.—Montague White, consul general for the South African republic in London, closed the consulate Wednesday and immediately left for the continent. Mr. White's departure was not attended by any excitement.

To Help Is Treason.

Cape Town, Oct. 12.—Sir Alfred Milner, governor of Cape Colony, and British high commissioner in South Africa, has issued a proclamation declaring all persons abetting the enemy in a state of war with Great Britain to be guilty of high treason.

The Boers are expected to occupy New Castle, Natal, this morning.

Notified War in Existence.

Paris, Oct. 12.—Secretary Vanderhoeven, of The Transvaal European agency, has officially notified the French government that a state of war between the South African republic and Great Britain exists.

Nearer the Border.

Cape Town, Oct. 12.—All available troops of the garrison of the Cape district have been dispatched to a point nearer the border.

May Arraign for High Treason.

London, Oct. 12.—The Sun of this city prints a rumor that the government will prosecute certain Irish members of the house of commons on charges of high treason in consequence of their pro-Boer attitude.

In Behalf of the Transvaal.

Minneapolis, Oct. 12.—The advent of President McKinley to Minneapolis brought three informal commissioners in behalf of the Transvaal republic, the persons being James O'Beirne of New York, J. W. Vandervoigt of Baltimore, and J. E. Robin of New York. While admitting that they had come to see the president, they absolutely declined to discuss their mission.

Sympathy for the Boers.

Chicago, Oct. 12.—United States Senator William E. Mason has promised to champion the cause of the Transvaal on the floor of the senate. He said he would introduce a resolution in the senate at the earliest opportunity, expressing sympathy for the Boers in their struggle for the preservation of their independence. He said also that he would propose a memorial to the queen of England in behalf of the South African republic.

plies are being moved up the Rio Grande by caissons to that point. Lawton will command a column when full concentration has been effected. The insurgent's attack on the Angeles line was quickly repulsed, six enlisted men slightly wounded.

Placed Under Civil Authority.

Chicago, Oct. 12.—A special cable to The Tribune from Paris says that cabinet has voted to place all French colonies under civil authority and abolish all military administration. The reform was proposed by M. DeCrais, minister of colonies, and is a direct outgrowth of the stories of cruelty and oppression of natives by military authorities.

FUNSTON'S OPINION.

Filipinos Incapable of Self Government and Must Be Whipped into Line.

San Francisco, Oct. 12. -- "I see no reason why the Americans should not be sole masters of the Philippines by March next year." This is the opinion of Brigadier General Funston, who has arrived at the home of his wife in East Oakland.

"The situation in the islands," he said, "has reached a stage where it is very easy to see how to cope with it. There must be no temporizing, no wasted sympathy, no foolish sentiment. It must be a case of fight. The Filipinos are now in such a frame of mind that they will not yield until they are thrashed and convinced that it is useless to oppose America. I do not say this unadvisedly. I have given the matter many months of deep study, and my knowledge of Spanish enabled me to converse freely with officers and prisoners on the rebel side.

"We arrived at Manila last December, which was two months before hostilities began. During those two months the officers of the Filipinos frequently came within our lines, and I discussed with them every phase of the situation. They were very highminded and gave me the opinion that they were well able to look after themselves, and that it was all very well for the Americans to deliver them from the persecutions of Spain, but that, having performed that service, we should be satisfied and let them alone.

"The best among them are ignorant. Occasionally I found a smattering of education. But they are absolutely an ignorant race, and quite incapable of selfgovernment. They possess much shrewdness and are cunning, but the chief trait in their character is treachery. It is this which has enabled them to make as good a showing as they have made.

"Suppose that they were left alone. The islands would be a scene of insurrection without any possibility of restoring peace. I am convinced that the best way to govern the islands is to give them a firm, stiff necked colonial government, moulded on the same lines as the government of colonies of Great Britain.

"This may seem strange, but I am convinced that as soon as the rebellion is crushed there will be an entire change of heart among a large percentage of natives, and they will be quite willing to carry arms under American officers.

"With the 35,000 men there and the additional 25,000 that will be on the ground when the November campaign opens, there will be ample soldiers to walk through the islands. But it must not be a campaign of temporizing. It must be aggressive and persistent from the start. The Filipinos are no match for Americans on the battlefield.

"The seat of all the trouble at this time is the Filipino junta at Hongkong. This pernicious little body is keeping the war alive. It is in communication with the insurgents and it supplies Aguinaldo's army with the hope from which it lives. It sends out reports of fearful disaster to our troops that never

their end they will maintain the rebellion, but if the American army fights them at every hand I believe they will turn as a hole and come flocking into our camp and will have no further use for that prince of confidence operators, Aguinaldo."

To Assassinate Aguinaldo.

Paris, Oct. 12.--It is learned that Jose Luna, a brother of the Filipino general who was murdered last June, presumably by order of Aguinaldo, left Paris en route for the Philippines with the avowed purpose of assassinating Aguinaldo. Jose Luna swore a vendetta against the Filipino chief after news of his brother's murder reached him. But he has only now been able to procure funds to proceed to the Philippines. Agoncillo, the Filipino agent, vainly sought to prevent Luna's departure.

BRYAN THE LEADER.

Democratic State Executive Committee Indorses the Nebraskan.

HILL OPPOSED HIM.

Croker and Murphy Carry a Resolution Through with but Little Trouble. Hill Is Dissatisfied and Takes His Defeat Hard.

New York, Oct. 12.—The followers of ex-Senator Murphy and Richard Croker defeated ex-Senator Hill in the struggle for supremacy at the meeting of the state Democratic committee. Just what the victory means the chief alone will tell, for Senator Hill in a strong speech on matters emphatically declared that while Croker had won the fight in the committee, he could not ride roughshod over the rights of state Democrats at the polls, and followers of the senator declared that Croker's victory meant defeat for every member of the legislature above the New York city line.

The following resolution was introduced: The Democratic State committee of New York recognizing that William Jennings Bryan is the approved leader of the Democratic party, expresses its solicitude for his health and strength and while he is temporarily stricken on the people's battlefield, they beg to assure him of their loyalty and love.

The resolution was seconded by Mr. Croker. Mr. Croker spoke of Mr. Bryan as the national leader, and said if he was nominated in 1900 the people would support him. Mr. Hill asked Croker sarcastically if he would support him.

"You have changed your mind three times and there is no telling what you will do when 1900 comes," said Mr. Hill.

Mr. Croker simply put his hands in his pockets and smiled back at Mr. Hill. Mr. Hill, in opposing the resolutions with his followers, declared that he and they had voted for and loyally supported Mr. Bryan in 1896.

Ex-Senator Murphy and Senator P. H. McCarren laughed out loud at this statement of ex-Senator Hill. The Bryan resolution was adopted by a vote of 38 to 10. The Cayuga contest was taken up and decided adversely to the Hill men. It was at this juncture that Mr. Hill made his passionate plea, threatening the New York City men in case they insisted upon their course.

"Let me warn you," he said, "that if any clique or coterie of politicians from this city tries to ride over the Democrats of Cayuga county, the ticket that the clique indorses will not be worth the paper it is printed on."

Affray Near Denton.

Denton, Oct. 12.—Meager details are obtainable here of a cutting and shooting affray, which occurred 15 miles east of here, near Lloyd. A prominent farmer came in and surrendered, saying he had wounded L. C. Sites, another farmer in a difficulty. He left the scene to come to town before the extent of Sites' injuries had been definitely ascertained, but it is reported here that he is seriously and perhaps fatally hurt, being shot and also cut. The party in custody was also cut in a number of places about the head and face, none of his wounds, however, being serious. The party who surrendered was released on bail.

Working for Consolidation.

New York, Oct. 12.—For several months Boston promoters have been endeavoring to consolidate the paper felt makers business of the country. There are 13 factories in the United States manufacturing the product used by all paper and straw board makers. The material is made of a fine grade of wool. The factories are situated in Maine, Ohio, Massachusetts and Wisconsin. Nearly all the principal manufacturers are in session in this city endeavoring to regulate prices to conform to the 20 per cent advance in wool.

Losses at Bridgeport.

Bridgeport, Tex., Oct. 12.—A disastrous fire visited Bridgeport and consumed a large portion of the business part of the town. It originated in the rear of Lane's dry goods store and appears to have been the work of an incendiary. Loss about \$19,000 with small insurance.

Great Waterway Proposal.

Peoria, Ill., Oct. 15.—A deep waterway or ship canal, connecting the great lakes with the gulf, is the subject being considered by a convention of prominent citizens in this city. All resolutions were referred after reading to the committee on resolutions.

New Bridge Opened.

Ardmore, I. T., Oct. 12.—The new bridge which spans the Canadian river and connects Purcell and Lexington, O. T., has been opened. The bridge is 2600 feet in length and is composed of steel and wood. It was built by public subscription.

Election at Indianapolis.

Indianapolis, Oct. 12.—Complete returns give Mayor Taggart, Democrat, a plurality of 347. The Democrats also elect the city clerk and police judge. The council is divided.

Turpentine Brings Fifty Cents.

Savannah, Oct. 12.—For the first time in more than ten years spirits of turpentine was quoted at fifty cents a gallon on the floor of the board of trade.

A FINE SHOWING.

What the United States Has Accomplished in Cuba Since Evacuation.

Washington, Oct. 12.—An interesting report on the conditions existing in Havana has been submitted to Major General Brooke by Brigadier General Ludlow, military governor of the city, and transmitted to the war department. After describing the lamentable state to which the city had been reduced by war when "the most imperative requirements of a city government were abandoned," he says:

"Within 90 days of the beginning of the American control all this has been amended. There is no means of estimating how many thousands of lives have been saved during the American occupation, partly by outright rescue with food and medicines, partly by giving employment to the destitute and partly by the reduced death rate from improving the sanitary conditions, affecting the entire population.

"It may be held that aside from the commercial or industrial conditions merely, the object lesson given by the administrative and physical rehabilitations of Havana that has been effected within a few months, constitutes an enormous moral force, the result of which are to a greater or less extent permanent and of incalculable value to Cuba and elsewhere.

"In Havana the rule of law is practically complete. The rural districts are as orderly as in the interior of New England. These facts must be credited in great part to the measures adopted by the American administration, but it would be unjust not to credit the inhabitants themselves with a willingness to fall in with the purposes of the administration and to cooperate with them.

"As to commerce, the situation is less clear. The American occupation was followed by an abnormal volume of imports, due to the banking up of invoices, awaiting anticipated changes in charge and a period of active movement ensued, the continuance of which will depend upon the extent to which the resources of the island can be developed. Money is plenty, as is shown by the rate of interest at 6 per cent or 7 per cent instead of 10 to 15 per cent as formerly. Financial movements are likely to be more or less hesitating until some explicit conclusion is announced as to the future administration.

"In a single respect have the results thus far attained in Havana fallen short of satisfactory adjustment. The vital question of primary education is still practically unsolved and the great majority of Havana school children of school age are running wild in the streets without instruction or discipline.

"The conditions of living are simple in this country. A livelihood is readily attained in the essentials of a patch of ground, a few tools and seeds can be had and a little aid rendered at the outset to those who are willing to earn their own living if given the opportunity. The people have learned to ask for work instead of a pauperizing aid, and tools in place of food, and with the exception of a formidable residuum of helpless women and children the able bodied are at work and earning their subsistence."

REACHES MINNEAPOLIS.

President McKinley and Returning Philippine Troops Meet There.

Minneapolis, Oct. 12.—President McKinley and party arrived here at 11 o'clock this morning. An immense crowd assembled at the depot to greet the chief executive. As he emerged from the train, tremendous cheering began and was taken up by waiting crowds and carried down the line for blocks. Carriages waiting conveyed the president and cabinet to the home of Thomas Lowry. Here a light luncheon was served. In the meanwhile the train bearing home the Thirteenth Minnesota volunteers from the Philippines arrived. The regiment was formed in line at the head of Nicolet avenue. The carriages bearing President McKinley and the cabinet drew up and took their positions at the head of the column. The procession then moved down Nicolet avenue to the center of the city.

At 1 o'clock the president entered the reviewing stand and the Philippine veterans "present arm," as they passed. As the rear guard passed the reviewing stand the president entered a carriage and drove by a shorter route to the exposition building. Here the principal events of the day took place. A feast was spread for the Thirteenth Minnesota volunteers. At the conclusion of the banquet President McKinley was introduced and was greeted by prolonged applause.

Judge Ferris' Will.

Waxahachie, Tex., Oct. 12.—The will of the late Judge J. W. Ferris has been admitted to probate in the county court here. His two sons, Royal A. Ferris of Dallas, and Thomas A. Ferris of this place, were appointed executors, without bond, as provided in the will. The application for probate of the will states the value of the estate to be \$300,000. Judge Anson Rainey was one of the subscribing witnesses and came down from Dallas to prove the execution of the will for probate.

Recruiting Negroes.

Americus, Ga., Oct. 12.—The recruiting station here for the Forty-eighth regiment, colored, is doing excellent work, already 20 volunteers have been accepted by the officers in charge and sent to Fort Thomas. More than half of the applicants are rejected on account of disease.
